## ISO 9001 Certified Woodworking Clamps

The Bessey name has earned the status of “clamp of choice” among non-professional and professional woodworkers that consist of serious hobbyists, semi-professional and contractor trades.

Bessey, through their highly automated manufacturing and assembly equipment, has grown over the last century to become the largest clamp manufacturer in the world. They are the only company in existence that controls the entire manufacturing process from raw material to finished product.

With over 30 different tools to choose from, we are sure we have what you need. You can trust you are using the right tool if it carries the Bessey name.
