Here are a few industries and their applications!

**SIGNAGE** Celtec provides a safe, economical alternative for indoor and outdoor signs, especially in high-traffic pedestrian areas.

**SCHOOLS** Celtec contains NO LEAD, CADMIUM, BARIUM or Zinc heat stabilizers. Celtec is made only with tin which means no special health, environmental or waste disposal problems — making Celtec a first choice for therapists and teachers alike.

## **PHOTO MOUNTINGS**

**AND WALL MAPS** The long-lasting, non-warping, corrosion-resistant characteristics of Celtec combined with the material's ability not to absorb water, make it the perfect choice for photo mountings. Wall maps printed on Celtec maintain their clarity and sharpness.

**EXHIBITS** If displays require vertical or horizontal construction or banner-type signs, Celtec's light weight, and ability to hold graphic brightness make it an ideal choice for producing exhibits. The material's ability to reduce noise allows it to be incorporated as an ideal solution for office enclosures at shows.

**COLORS** White, Black, Dark Grey, Cool Grey, Beige, Yellow, Green, Orange, Violet, Teal, Red, Blue, Dark Blue.

**SIZES** 48x96, 48x120, 5x8, 5x10. Cut pieces available.

**THICKNESS** 1, 2, 3, 4, 5, 6, 10, 12, 19, and 25 mm
