Get on Board with CPG Seaboard!

The cutting-edge, high-density polyethylene sheet formulated to meet the demanding conditions of life on the open sea!

 Manufactured from the highest density HDPE resin which has a specific gravity of .960. This formulation ensures CPG Seaboard will be the most rigid and dimensionally stable product available.

 Pre-production treatment provides every sheet with enhanced ability to resist the harmful effects of salt water, moisture, and direct sunlight.

 Superior strength and toughness because it's manufactured as a continuous extrusion, not press laminated. Ensuring no structural weak spots where delamination could occur.

CPG SEABOARD™ COLOR AND SIZE AVAILABILITY

Color	Finish	Thickness	Width	Length
Ultra White, Light Gray, Dark Gray, Black, Sea Foam, Fish White and Sand Shade	Matte	1/4" - 1"	48" or 54" 48" or 54"	96" 120"

SPECIAL NOTE! CPG Seaboard meets all the requirements of the Food and Drug Administration Regulation 21 CFR 177.1520 for articles intended for use in direct contact with foodstuffs. CPG Seaboard is ultraviolet stabilized.
